PROGRAMS AND RELATED TEXT**

5                   **Abstract of the Disclosure**

5                   A television viewer uses a PIP format for display of  
program related information such as television program  
listings from a program schedule data base in the  
background and moving, real time or stored video clip  
10                  images of a program selected from the displayed listings  
in the PIP window. All the text of the background  
information lies outside the PIP window. In one  
embodiment, as the viewer selects a particular program  
from the display of current television program listings by  
means of a cursor or a code number, the corresponding  
15                  program automatically appears in the PIP window.
